

## **EUP MiSTEM Region**

### **EUPISD Board Approval items for April 13, 2022**

**1. Under the 2020-2022 MiSTEM Advisory Council Grant program, the Cereal City Science grant consortium for which the EUPISD is the fiscal agent is seeking approval to fund:**

**A) \$5,000 for the completion of the attached consulting agreement with Education Transform to complete the Sage Modeler project for grade 5 including the facilitation of a virtual workshop. This proposal is an extension of the pilot project that was completed this year to integrate computer science and computational thinking into science curriculum and has generated positive feedback from statewide science leadership. Cereal City Science will be sharing costs for this project by funding the remaining \$4,000 associated with this proposal.**

#### **[Consulting Agreement with Education Transform](#)**

#### **[Proposed Scope of Work from Education Transform](#)**

**B) \$3,750 for the completion of the attached proposal from consultants Allison Hoff and Steve Barry to complete the grade 3 project for GIS integration into elementary science curriculum. This is also an extension of the pilot project that was completed this year to integrate computer science and computational thinking into science curriculum. Cereal City Science will be sharing costs for this project by funding the remaining \$3,750 associated with this proposal.**
