

Proposed Scope of Work

Education Transform Scope of work:

- Provide suggestions for enhancement and revision of specific lesson plans related to the integration of modeling as approved by Cereal City Science.
- Incorporation of Sage Modeler into specific lessons of the 5PNG Unit as recommended by Cereal City Science to demonstrate cause and effect through modeling.
- An interactive, virtual resource that guides teachers through the various modeling activities that are incorporated into the curriculum.
- An interactive Train-the-Trainer Professional Learning Workshop (3 hours) which will engage the consultants with the revised curriculum as well as supporting the pedagogy needed to maximize students' learning.

Partners scope of work:

- Provide access to curricular materials and online resources
- Revision of the lesson plans based on the suggestions
- Hosting virtual resource
- Scheduling time for professional learning

Timeline:
