

MDE TRAC Audit

The Office of Career and Technical Education is currently onsite October 3-6. The purpose of the review is to meet state and federal requirements for monitoring sub-recipients. In addition, the OCTE uses the TRAC process to provide technical assistance to local district administrators, teachers, and other staff for continual improvement of state-approved career and technical education (CTE) programs.

The following programs will be reviewed by MDE consultants

Cedarville- Construction and Small Engine Repair

Engadine- Woodworking

Brimley- Natural Resources

Newberry- Health Sciences

Rudyard- Education, Woodworking

Sault- Finance, BMA, Digital Multimedia, Machine Tool, Auto, Health Sciences

CTE Events 2022-2023

Manufacturing Day- Manufacturing Day is being planned for October 26th. It will be held on the campus of LSSU at the Cisler Center. The event is for all 9th grade students. The goal of Manufacturing Day is to expose 9th grade students to the many careers in manufacturing.

Health Science Day- A Health Science Day is being planned for December 16th. The event will be hosted by War Memorial Hospital. It is designed to be a Career Awareness Day for all 10th grade students in the region. Students will rotate through 12 stations:

Revenue cycle

Radiology

Information Technology/Information Systems

Pharmacy

Long Term Care

Plant & Environmental Services

Med/Surg

Laboratory

Surgical Services

Rehabilitation

Behavioral Health Center

The goal of the tour is to provide students information about the various careers in a health care setting and link those careers to the CTE classes being offered in the region.

**Covid and staffing issues may be an issue

CTE Program Tours- During the month of February, all 10th grade students are invited to tour the CTE programs in the region. The goal of the CTE tours is to provide 10th students an opportunity to see the CTE programs and learn more information about the various programs prior to scheduling for fall classes.

Vocation Trades Day- A Vocational Trades Day is being planned for the spring of 2023 for all 11th and 12th grade students. The goal of the Trades Day is to expose the students to the many employers in Northern Lower Michigan as well as the Upper Peninsula.
